Sprint Report- 09/18/20	
Project Name	Livia Soprano's Revenge
Project Manager	Graham
Number of Tickets	8
Report Period	09/14-09/18
Number of Points	13
Report Phase	Week 1 of 2
Sprint Objective	• Clean up Sustainability Phase 1 bugs • Improve submittal/project UX with add products button • Begin implementing redesign of submittal/brochure workflow.

Task	Points	Status	Description
Remove character limits on landing page	1	Ready for testing on Monday	Enables customers to not have character limits on Landing page text. Requested by Masco and Prosoco
Push Prettify URL's to production	0	Ready for testing on Monday	Enables URL's for DS to have cleaner names to be more appealing/ memorable for AEC's.
Company Logo Addition	5	Ready for testing on Monday	Allows for AEC's to upload their own company logos when creating a submittal or brochure. Logo uploaded will appear on submittal overview and brochure
Add new step by step component to search results page for submittals/ brochures	2	Ready for testing on Monday	Adds the new component of the submittal/brochure step by step process to Design Studio
Remove Grid View and List View during submittal/brochure	2	Ready for testing on Monday	For cleaner UI/UX, we've taken out the ability to switch between grid view and list view when user is creating submittal/brochure.
Add More Products Button	1	Ready for testing on Monday	Button allows user to leave submittal/ brochure steps 2-5 to add more products to their in progress submittal/ brochure if need be.
Checkboxes On Manager for Certs Operating inaccurately	1	Ready for testing on Monday	Error where checkboxes are not selecting certificates correctly
More than 4 Certs/Docs added to Sustainability causes overflow on DS	1	Ready for testing on Monday	When there are more than 4 certs/docs added to sustainability section on DS, they overflow out of their section creating a sloppy UI.
